

Learning to Fly with Tommy!

Celestial Navigation Through the Canals of Mars

Episode 4

Nothing like night-flying for star watching! Don't try it at home though!

1. *Where was the astronomical photographer, David Peck Todd at Amherst College, born?*

2. *There were three telescope observatories mentioned in the class, the first two are in Dryden and Cornell. Where is the third one located?*

3. *What is the navigation instrument used to determine your position on the surface of the earth in reference to the stars?*
